

## AVTA Trail Update 11/19/19

The Pipeline Hill Trail at the Ridge entrance on Wertsville Road has been rerouted.

The pipeline has had work done this summer and the ground needs to settle and we need to let grass grow before we use it.

To avoid this area the trail has been rerouted.

Walk in the creek (about 20ft) and you see a path up a short bank.

Follow along the bank till you reach markings that will head you up the hill to meet the existing trail.
